## MEETING MINUTES

| | |
|---|---|
| **Project Name** | Cookify |
| **Meeting Name** | Frontend and Backend Implementation |
| **Meeting Facilitator** | Simran Gahra |
| **Meeting Details** | Date: October 28, 2024<br>Time: 1:00 PM – 6:00 PM<br>Location: Room 484.1, Engineering Software Lab |
| **Meeting Invitees** | Simran Gahra, Nathan Okah, Hashir Owais |

**Minutes:**

| Topic | Summary of Discussion/Decision |
|---|---|
| Framework and Library Setup: | Simran led the setup and configuration of essential frontend and backend frameworks and libraries. The team ensured consistent installations across all systems to avoid compatibility issues. |
| Route and Navigation Structure: | Nathan worked on establishing the primary routes for the application, including Home, Recipes, and Profile. The team reviewed the navigation structure to align it with wireframes, ensuring a seamless user experience. |
| UI Component Development and Testing: | Hashir began developing core UI components such as headers, footers, and navigation elements. Initial testing of frontend-backend integration was conducted to identify and resolve any issues in early stages. |

**Action Items:**

| Description of Action | Assigned to | Date Required |
|---|---|---|
| N/A | N/A | N/A |
